

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

### Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

It has a water area of 70,041 square feet, and a capacity of 7,508,246 gallons. This reservoir is now used for storage, and is connected with the distributing pipes only in case of fire or accident to the pumping mains.

The "East Boston Reservoir," on Eagle hill, East Boston, bounded westward by Brooks and southerly by White street. The land covered by and appurtenant to it comprises about 216,027 square feet. Its water area is 44,100 square feet, and its capacity 5,591,816 gallons.

The "Parker-hill Reservoir," on Parker hill, Roxbury, located on a lot of land taken under the Act of the Legislature authorizing the building of this reservoir, contains 197,614 square feet. It was built for the high-service supply, and will hold 7,200,000 gallons above a plane 2½ feet above the bottom of the over-flow pipe. Area of the water surface, 64,038 square feet, and its elevation 219 feet above tide-marsh level. A strip of land 25 feet wide, leading from Fisher avenue, and containing 2,887 square feet, was purchased for a route for the pipes to the reservoir.

The High-Service Reservoir, situated on Fisher hill, Brookline, was completed in 1887. The site of this reservoir contains 459,670 feet of land; the capacity of the reservoir is 15,000,000 gallons; high-water line is 241 feet above tide-marsh level. The Pumping-station at Chestnut hill, containing two Gaskill engines of 8,000,000 gallons capacity each, one Leavitt engine of 20,000,000 gallons capacity, and three boilers. A dwelling-house for the engineer of the Pumping-station, located on Chestnut Hill ave. The supplementary high-service in West Roxbury, consisting of an iron tank on Mt. Bellevue, — the highest land in the city, — into which water is pumped by two Knowles pumps, placed in a brick house situated on Washington street, opposite Metropolitan avenue, Roslindale.

An iron tank on Breed's Island, East Boston, built for the purposes of high service for the residents in that vicinity, and an engine-house built on the corner of Brooks and Condor streets, East Boston, to which the pumping plant near the old reservoir has been removed.

The main pipes leading from the receiving-reservoirs in Brookline and Brighton to this city, and the distributing-pipes laid in the city proper, East Boston, South Boston, Roxbury, Dorchester, West Roxbury, and Brighton, aggregate in length 596 miles, varying in size from 4 to 48 inches in diameter.

Pipe-yard and wharf, Albany street, containing 132,000 feet, upon which are located the offices and shops of the Eastern Division. These are located in a three-story brick building, 41×215 feet. The stable is a three-story brick building, 40×110 feet, with accommodations for 28 horses. Building on Elmwood street and place, on a lot of 5,563 square feet, in which have been the pumping-engines for supplying water to the highest parts of the city.

The cost of construction of these works to the city, up to the 31st January, 1896, is \$24,452,227.53.

#### MYSTIC WATER-WORKS.

The upper portion of Mystic lake, which is the source of supply, situated in the towns of Medford, Arlington, and Winchester, 6½ miles from Charlestown square. It has an area of about 200 acres when flowed to the level authorized by the Act to take water, and a storage capacity of that level of 380,000,000 gallons. To convey the water of the lake to the citizens, the works consist of dam and overfall; conduit with its appurtenant gate-houses, waste-weir and ventilator; cast-iron main under Mystic river; engine-house; pumping-engines; force-mains; reservoir with influent and effluent chambers; supply-mains and city distribution-pipes, hydrants, gates, etc.

The dam is 1,560 feet long, built of earthwork and masonry, and its height is 11 feet above high-water mark of Boston Harbor. The conduit is 7,450 feet in length, constructed of hydraulic brick masonry 8 inches thick. It is oviform in shape, 5 feet 8 inches high, and 5 feet wide, interior dimensions. The cast-iron mains, two in number, conveying the water from the pipe-chamber at the end of the conduit to the engine-house, are 487 feet long and 3 feet in diameter.

The engine-house, situated on the southerly bank of, and about 200 feet from, the Mystic river, is a substantial building, 120 feet long and 58 feet wide, constructed of faced brick and freestone, and embraces under one roof the boiler and engine-rooms, repair-shop, and pump-well. The lot of land about the engine-house is about 12 acres, and upon a portion of it is a

dwelling-house for the engineers, and also a stable. Connected with the engine-house is a brick and stone coal-shed, having a capacity of 1,000 tons.

In the engine-house are three of Worthington's Duplex Pumping-engines, two of 5,000,000 gallons each and one of 8,000,000 gallons capacity, per 24 hours, and one Leavitt engine. Six boilers supply the steam for pumping the water.

The two force-mains are of cast iron, each 30 inches in diameter, and 3,277 feet in length. The reservoir is on Walnut hill, in Medford, near Tuft's College.

Its water surface covers an area of  $4\frac{1}{2}$  acres, being nearly a parallelogram in shape,  $560 \times 350$  feet.

High-water line is 147 feet above tide marsh level, and at this grade its capacity is 26,244,415 gallons.

The whole lot of land connected with the reservoir belonging to the city is about  $10\frac{1}{2}$  acres.

The whole length of distribution-pipes in Charlestown is about 40 miles. The whole length of distribution-pipes supplied by the Mystic works is about 174 miles. The city owns also a lot of land containing 12,807 square feet on Medford street, with a brick stable upon it. This land is used for a pipe-yard.

A two-story brick building,  $38 \times 40$ , built during the year 1882-83, for use as a work-shop, is located on land of the city at the corner of Medford and Tufts streets.

The cost of construction of the Mystic Water-Works up to January 31, 1896, the amount paid by the Metropolitan Sewerage Commissioners (\$52,637) for the portion of Mystic Sewer taken having been deducted, is \$1,803,775.29.

**MYSTIC SEWER.**—On July 18, 1895, the Metropolitan Sewerage Commissioners assumed possession of the greater portion of the Mystic sewer, under their taking of July 14, 1893, and for which the Commonwealth had paid the city the sum of \$52,637. The portion remaining the property of the city is situated in Woburn, and negotiations have been started for its purchase by that city.

a By Boston proper is meant the territory of Boston, independent of all annexations.

b Estimates made in the years named. Those for 1875 and 1893 were probably too large.

c Estimates based on censuses of polls.

d Estimates based on actual number of houses in 1789, and the average persons to a house, as shown by the U.S. Census of 1790.

e By the State census of May, 1840, the population of Boston was 84,401. Mr. Shattuck, in his report on the census of Boston for 1845, shows clearly that the U.S. census of 1840 was incorrect.

g Included also in the population of Dorchester in this year. After 1855, Washington Village is included in South Boston.

h The population of South Boston could not be stated definitely for 1875, because the wards including South Boston also included a part of Boston proper. The figures given are very close, however.

i The territory of Roxbury and Dorchester was not kept intact by ward boundaries in the ward division of 1875; it is difficult, therefore, to give the exact population of each district by the census of 1880. The figures given are the result of very careful study of the population by census enumeration districts, of which there were 208 in Boston for the U.S. census of 1880.

j The population, as usually given in census tables, includes that of the islands in the harbor.  
k For the separate islands as follows: 1880 — Breed's, 152; Deer, 851; Galloupe, 5; Rainsford, 187; Long, 49; Lovell, 5; Spectacle, 53; Thompson's, 106; Fort Independence, 13; Fort Warren, 112; Fort Winthrop, 12. 1885 — Breed's, 348; Deer, 1,145; Galloupe, 6; Rainsford, 204; Long, 81; Lovell, 7; Spectacle, 61; Thompson's, 122; Fort Independence, 11; Fort Warren, 129; Fort Winthrop, 25.

## TRUST FUNDS.

### OVERSEERS OF THE POOR'S FUNDS.

Trust Funds in the hands of the Overseers of the Poor, William P. Fowler, *Chairman*; Frederic W. Lincoln, *Treasurer*.

**PEMBERTON FUND.** — This fund comprises bequests and gifts made to the City of Boston, from 1760 to the present time from "A. B.," Daniel Oliver, Margaret Blackadar, Alice Quick, Annie Wheelwright, Mary Ireland, Benjamin Pemberton, Martha Stevens, Mrs. H. Driscoll, William Breed, Samuel Elliot, John Coffin Jones, Mary Belknap, "A citizen of Boston," Anonymous, Dr. Harriot K. Hunt, George Higginson, Walter E. Hawes, and Wm. B. Spooner. The most important, however, of the bequests was from BENJAMIN PEMBERTON, whose will was proved June 25, 1782, and for that reason his name has been given to the fund. The income of this fund is to be expended at the discretion of the Overseers, in semi-annual payments to the poor of this city. The amount of this fund January 31, 1896, was \$135,642.21.

**BOYLSTON FUNDS.** — These funds were from a bequest by JOHN BOYLSTON, who died in London. His will was proved June 12, 1795. One portion of the bequest is ordered to be paid to "Poor and decayed householders of the Town of Boston," "not under fifty years of age," "persons of good character, and reduced by the act of Providence, not by indolence, extravagance, or other vice." The other portion to be applied to "nurture and instruction of Poor Orphans and Deserted Children of the Town of Boston until fourteen years of age."

The Boylston Relief Fund amounted, January 31, 1896, to \$30,343.40.

The Boylston Education Fund amounted, January 31, 1896, to \$145,789.07.

**MASON FUND.** — Was a bequest of JONATHAN MASON, by will dated July 15, 1798. Interests to be paid annually to the Chaplain of the almshouse or workhouse. Interest to be added until one is appointed. The interest is now paid annually towards the salary of the Chaplain of the House of Industry. Amount of Mason Fund, January 31, 1896, was \$8,493.49.

**DEXTER FUND.** — Was a bequest of SAMUEL DEXTER, by will dated May 7, 1811, for supplying firewood or coal to such objects of charity as are not supported in the almshouse, though sometimes relieved by the Overseers of the Poor. Amount of Dexter Fund, January 31, 1896, \$4,928.41.

**JEFFRIES FUND.** — Was a bequest of DAVID JEFFRIES, former Town Treasurer. Will dated January, 1786. #### FRANKLIN FUND.

This is a fund for the encouragement of young married mechanics. Dr. BENJAMIN FRANKLIN, in his will, gave the inhabitants of Boston, in 1791, £1,000 sterling, which he directed to be loaned in sums of not more than £60 nor less than £15 to one applicant five per cent. interest; to be repaid in annual instalments of ten per cent. each. These loans are restricted to "Young Married Artificers," under the age of twenty-five, who have faithfully served an apprenticeship in Boston, so as to obtain a certificate of good moral character from at least two respectable citizens, who are willing to become their sureties in a bond for their payment of the money.

It was the estimate of Dr. Franklin that the £1,000 would increase in 100 years to £131,000, and then the managers of the fund were to lay out in public works £100,000, and the balance to continue on interest for another hundred years, which he estimated would then amount to £4,600,000; of this amount the sum of £1,610,000 was to be at the disposal of the inhabitants of the Town of Boston, and the balance to be paid the Government of the State.

As the first loan was made in May, 1791, the one hundred years expired in May, 1891. But the amount of the fund on July 1, 1891, owing to some early losses, did not reach the sum estimated by Dr. Franklin. It was, however, determined by the Trustees that in the distribution of the proceeds the same proportions should be observed as were fixed in his estimate.

The total amount of the fund on July 1, 1891, was \$391,168.68. But before the proper division of the fund could be made, the city was enjoined by the heirs of Benjamin Franklin, at Philadelphia, from making any division until

the termination of judicial proceedings in Philadelphia by said heirs to recover the present value of the fund for their own benefit. The judgment of the lowest court was adverse to the heirs, who appealed the case, through additional adverse opinions, to the highest court of Pennsylvania, which finally decided in May, 1893, against the heirs. And the injunction was removed.

At a meeting of the Trustees held on October 20, 1893, it was adjudged and determined that the city's portion of the Franklin Fund on July 1, 1893, was \$322,490.20, and at a meeting held November 9, 1893, the Trustees voted unanimously to devote the above sum for the establishment of a Trades School, to be known as the "Franklin Trades School" — which should also be a memorial of its illustrious benefactor.

At a meeting of the Trustees of the fund held on December 28, 1893, it was unanimously *Voted*, That the sum set apart from the general Franklin Fund as due to the City of Boston on July 1, 1893, viz., \$322,490.20 with its accumulations be paid by the Treasurer of the fund in January next to the City Treasurer to continue a special fund for the purchase of land, and for the erection thereon of the Franklin Trades School and the equipment of the same; said expenditures to be made under the direction of such department as may for the time being be charged by the statutes and ordinances with the duty of erecting and furnishing public buildings in the City of Boston. The location of and plans for said school to be approved by the Board of Managers of said fund.

On January 15, 1894, a committee of the Board of Aldermen (being a majority of the Trustees of the Franklin Fund) reported that the condition of said fund on January 1, 1894, was as follows:

|  |                     |

The condition of the General Fund on January 1, 1896, was as follows:

**TICKNOR BEQUEST**—By the will of the late **GEORGE TICKNOR**, of Boston, he gave to the City of Boston, on the death of his wife, all his books and manuscripts, in the Spanish and Portuguese languages, about four thousand volumes, and also the sum of four thousand dollars. After the receipt of said sum, the city is required to spend not less than one thousand dollars in every five years during the twenty-five years next succeeding (*i. e.*, the income of four thousand dollars, at the rate of five per cent. per annum), in the purchase of books in the Spanish and Portuguese languages and literature. At the end of twenty-five years the income of the said sum is to be expended annually in the purchase of books of permanent value, either in the Spanish or Portuguese languages, or in such other languages as may be deemed expedient by those having charge of the Library. The books bequeathed or purchased are always to be freely accessible for reference or study, but are not to be loaned for use outside of the library building. In order that the city might receive the immediate benefit of this contribution, Anna Ticknor, widow of the donor, relinquished her right to retain during her life the books and manuscripts, and placed them under the control of the city, the City Council having previously accepted the bequests in accordance with the terms and conditions of said will, and the Trustees of the Public Library received said bequests on behalf of the city, and made suitable arrangements for the care and custody of the books and manuscripts.

should seem judicious. They elected to bestow it on the Public Library, attaching to it the following conditions: "In trust that the income, but the income only, shall, year by year, be expended in the purchase of books of permanent value for the use of the free Public Library of the city, and, as far as practicable, of such a character as to be of special interest to young men."
